

REQUEST OF COLORS OUT OF STANDARS

In the datasheet of each product is indicated the colors in which it is available as standard. For orders over 10pcs and with an extra cost, it is available to change the standard color and supply the products with a different color than the one indicated in the datasheet as standard.

Minimum Order Quantity required and Extra Cost according the color required:

The net extra cost indicated in the following table, will be divided to the total amount of pieces painted with that color and added to the net price of the product.

*** Below the MOQ required, the option to supply products with a different color than the standards is not available.*
