Liquids and ice: capacity 25L						X

- Modular: can be installed individually or as recycling stations formed by multiple bins joined together. The bins can be connected to each other through any of their side or back faces, allowing the formation of elongated or square stations. (bin-to-bin connection element supplied with the bin)
- Interior access for emptying via front door with magnetic closure (optionally available with triangular key lock, subject to minimum order quantity).
- Collection systems:
 - Ring bag holder, attached and articulated to the body (with access to the ring from the hinged top lid).
 - Sliding ring bag holder that folds out at the front with guides and with elastic band to hold the bag (only available for pedal version).
 - Metal liner (with elastic rubber band to keep the bag in place).
 - Plastic bucket 10L for organic waste (Biobin version).
 - Plastic drum 25L (liquids version).
- Base integrated into the bin.
- Includes height adjustable legs.
- Not anchored to the ground (special version for anchoring to the ground available as an option. Minimum order quantity required)

ACCESSORIES (Optional)

- Wheels: 4 wheel kit without brake hidden behind the bin’s lower kit base (accessory not available for pedal system version).
- Wall mounting kit: Allows anchoring the bin to a wall (accessory not available for pedal system version).
- Rainhood (not compatible with bins joined back to back)
- Signage panel.
- Basic Frontal adhesive: placed on the door, it incorporates the Color and Name of the waste.
- Special Frontal adhesive placed on the door: this is a large adhesive with a special design provided by the customer. (65L: 236mm x 450mm, 95L: 361mm x 450mm).
- Liquid retention inner tray made of galvanized steel (Only suitable for single ring bag holder versions and liquid version with drum).
- Drum spare 25L (special) for Turin Plus Liquids.
- Made of 1.5 and 2 mm cold rolled steel plates which have been hot dip galvanized.
- Finished with thermosetting polyester resin powder coating.
- Liquid version, the stream to deposit liquids is made of 1.2 mm 316 stainless steel.
- Hinges and bag-holding ring made of zinc-plated steel.
- Suitable to be used indoor and outdoor under normal weather conditions. In case of extreme weather conditions, such as high salinity, temperature or humidity, an additional special treatment can be included. Check extra cost and MOQ.
- Guaranteed reliability: this product has satisfactorily exceeded functionality and endurance tests under real environmental and usage conditions.
